

Mission Most Important

Waste not your precious time, dear,
Let not intention fade,
Place mission most important,
It's where your destiny is made.

Join fresh with me each morning,
Restate your intention clear,
Then listen closely there within,
So that you will hear.

More than an open vessel,
You must actively pursue,
Your full participation,
Will bring your mission through.

Not time to settle in there,
To watch the roses grow,
You have a gift to bring, dear,
So others, too, will know.

'Tis a joint adventure,
Co-creating true,
In Mind comes forth the answers,
Transcendence coming through.

So feel not overwhelmed, dear,
Just join and call on Me,
Living love will lead us,
To where your light should be.

Trust that I am with you,
So that you can do your part,
In telling others I'm right within,
To give each a brand new start.

Let your attention and intention,
Move us forward every day,
Living love our beacon,
Will light our path God's way!
