

Move Forward with Conviction

Move forward with conviction

That you are not alone,
That I am there beside you,
My love, so well, you've known.

Move forward with conviction,

That love will light the day,
Dismiss you doubts and worries,
Don't hesitate, delay.

Move forward with conviction,

That what unfolds for you,
Your mission to fulfill there,
To let God's love come through.

Move forward with conviction,

With Source, we move as One,
Intertwined as family,
Each daughter and each son.

Move forward with conviction,

That love is what is true,
God's energy of meaning,
Redeems, makes all things new.

Move forward with conviction,

Know that I really care,
That I will never leave you,
Just ask, and I am there.

I state my own conviction,

My purpose there so true,
To love and guide you always,
God's will be done through you.
