

## **What's Real About Christmas**

We seek for deeper meaning,  
As Christmas Day draws near,  
More than trees or presents,  
Eggnog and good cheer.

The holly and the ivy,  
Though festive they may be,  
Are truly only trappings,  
Meant for eyes to see.

My birth, this day remembers,  
Has *meaning* ever new,  
Not just what happened long ago,  
*I'm born, each day, with you.*

I give you *real relationship*,  
Transcendence, there, in Mind,  
Joined within, I'm waiting,  
Ask for Me, you'll find.

I'm *real*, directly there, within,  
Choose to join, you'll see,  
You'll hear My Voice so clearly,  
You'll know it's really Me!

We'll live as One together,  
Love's light will lead our way,  
We'll rapture in our union,  
*Find Christmas, every day!*

The deeper meaning sought for,  
Is God's gift to you,  
*Living love's* this gift there,  
God's meaning coming through.

No greater gift can you receive,  
There's nothing can compare,  
To *living love's* great function,  
To heal, renew, repair.

What's *real* about this Christmas?  
It's that I'm there with you,  
*The gift of our relationship*,  
It's *real*, My Love, it's true.
