

The Daffodils are Blooming

The daffodils are blooming,
Buds bursting from the trees,
Spring has come to bless us,
So warm, its gentle breeze.

We feel the forward movement,
Winter's left the ground,
Bursting forth in gladness,
New growth is all around.

Can you feel the springtime?
There, within your Mind?
Transcendancy, God's Light, where,
Blooms of gold, you'll find.

You'll find within this garden,
Not only flowers, rare,
You'll find the One who loves you,
And faithfully, He's there.

This garden of delight, dear,
Is where we join as One,
We rapture in each other,
Feel love, like springtime sun.

The warmth, the light, the glory,
Our felt transcendancy,
God's given us this garden,
Our true heredity.

Seek not outside your mind, dear,
All issues forth from here,
This garden is the Causal Place,
Where Truth comes forth so clear.

I'm here to lead you onward,
Choose to follow Me,
We'll follow where Love leads us,
God's Will our destiny.

In closing let Me share again,
What you by now have known,
I am with you always,
You are not alone.
