

Living Love God's Meaning

We join as One, together.
As One we are at peace,
We share a common meaning,
Changeless, it will not cease.

This meaning is our clearest lamp,
Our light along the way,
And leads us ever onward,
Its vision to portray,

What God would have us be there,
His Presence where we are,
In each and every moment,
His point of light, His star,

That radiates His Love, there,
That heals and makes all new,
That shares a common purpose,
To all we say and do.

God's meaning lies within you,
Not far away, nor bound,
In complicated language,
But easily it's found.

Come to Me, my dear one,
Ask Me to show you how,
To let this Love flow through you,
It's there for you right now.

God's meaning has a purpose,
Fulfillment is its cause,
For it will bring completion,
So now, please take a pause.

Quiet your thinking mindset,
Let separation go,
Ask Me to be there with you.
To open up the flow,

Of Living Love, God's meaning,
What joy you will find here,
As we move together,
As One, with purpose clear,

To be what God so wills us,
To answer to His call,
And find complete fulfillment,
With Him, who is the All.

I cannot do it for you,
Free will is yours to use,
I offer to you what is true,
And know you'll rightly choose.

To come within right to Me,
And open up your heart,
To Living Love's true meaning,
As One we'll never part.

There is no greater calling,
There is no finer way,
The answer lies within you,
I'm here, right now, this day.
