

Today, We Move Together

Today, we move together,
And trust in what's to come,
Without hesitation,
We know where we come from.

From *Love* that dwells within us,
God's meaning there is found,
It is the binding agent,
Now joyfully we're bound!

Bound as One together,
Inextricably intertwined,
There is no separation,
With Source, we are aligned.

One without the other,
It's impossibility,
Love cannot be divided,
We are a unity.

Our Oneness has a purpose,
We move with One intent,
To welcome in All others,
Inclusion's what is meant.

When All know they're included,
Awakening will be done,
We'll join the mighty chorus,
We'll move, with God, as One.

Words cannot describe it,
The joy, the ecstasy,
Of living fully in His *Love*,
Completeness, there will be!

Until we're All awakened,
Let's live joined every day,
Moving forth together,
God's *Love* will light our way.

Go within right now, dear,
I'm here and standing true,
Waiting for your calling,
Waiting, just for you !
