

Christmas 2020

Jesus is the Answer

This year is coming to a close,
December now is here,
A year of tumult and of strife,
Felt far away and near.

Besieged by what we can't control,
The virus moved throughout,
And nations all, were dealt a blow,
And death was all about.

Uprisings for injustice,
Moved here and 'cross the sea,
And people marched together,
For true equality.

An election made its mark here,
Division played its part,
The vote was cast, and people chose,
For having a new start.

How can a little baby,
Who, long ago, was born,
Make a difference to a world,
So divided and so torn?

As we come to know Him,
And feel what *real love* is,
We know this *is* God's meaning,
With *love*, we're meant to live.

His *living love* will heal us,
Redeem, transform, make new,
Releasing what is faulty,
His *truth* will bring us through!

He gave us His great promise,
He said, 'I'm there with you.'
'I'll be with you always.'
'Behold, I make all new.'

This means He's right there with us,
Directly there within,
Waiting for your calling,
"Will you let Him in?"

Jesus is the answer,
His *love*, the guiding star,
He'll lead us home to Oneness,
With Him, we truly are!

May you have a Blessed Christmas! With Love in the Oneness, Randi
